FOREWORD

The Age Of Machines

"It is an extraordinary era in which we live. It is altogether new. The world has seen nothing like it before . . . the age is remarkable for scientific research into the heavens, the earth, what is beneath the earth; and perhaps more remarkable still is the application of this scientific research to the pursuit of life. The ancients saw nothing like it. The moderns have seen nothing like it until the present generation . . . The progress of the age has almost outstripped human belief."

SCHOOL STAFF

ADMINISTRATORS' MESSAGES

I apologize to you on behalf of all of the adults who, through their strong concern for your welfare, have been saying to you for the past twelve years:

Stand up
Sit down
Turn Right
Turn left
Pay attention
Take some responsibility
Follow the rules
Do your homework
"Yours is not to question why"
-----etc.

Was it all necessary? Well, our society seems to feel that it was. One thing is for sure, however, from this point on, all this will change for you — YOU ARE ON YOUR OWN. The decisions are yours to make —. May they be wise decisions that will bring you happiness, and what's more important, allow you to bring happiness to others. Congratulations.

Superintendent Of Schools
Thomas F. Caton, Jr.

Einstein said, "Our age is characterized by the perfection of means and the confusion of goals." Means are available to do almost anything we wish, but often enough we do not know what we want to do, or why. Having purpose is a prime necessity if you are going places. What is yours? Why do you want to do it?
